

Theatres and Decontamination Virtual Conference

Thursday 25th March 2021

This conference will provide delegates with the opportunity to hear from key speakers on a variety of subjects affecting theatres and decontamination science personnel. The programme will inform and educate delegates on subjects that affect their everyday life all of which will help contribute to the safety and care of our patients.

Why Attend? This annual one-day conference provides new insights into issues that are being talked about in real-time, today. The conference agenda has been developed by Theatre Managers and Decontamination Leads.

There will be plenty of virtual networking opportunities throughout the day with the chance to meet with NPAG Theatres and Decontamination members who have achieved success and savings through productive benchmarking.

In 2020, delegate feedback was extremely positive with 100% of respondents recording they would recommend this conference to a colleague.

Who Should Attend? This conference is open to all NHS and non-NHS, Theatres, Surgical and Decontamination Managers/Leads.

Message from Trevor Garcia, Chair

"This conference will give you the opportunity to hear updates in decontamination science and from our colleagues from theatre, with some sessions providing an insight into how the same situation affects us differently."

The NPAG Virtual Conference Guarantee

This is the safest way for us to deliver this important conference to you and what better way than virtually to actively work towards reducing our carbon footprint. The experience we will be offering will provide you with ample networking time with peers, presenters and exhibitors. Presentations will offer plenty of opportunity for Q&A and engagement can still take place once the conference is over. The programme has been managed to ensure sufficient break times which you can use to step away from your screen or schedule meetings with fellow attendees. All attendees will receive a CPD certificate.

Delegate Feedback

"Really informative conference with some common themes around benchmarking and quality improvements. Mark Campbell's presentation at the cutting edge of Sterilisation was fascinating."

"Thank you very much for organising another fantastic NPAG conference, we really enjoyed it and I took away loads of useful information."
